

I implore you to keep the use of translators for radio stations such as K-LOVE on the air and not use those frequencies for other stations. I listen to K-LOVE daily, and it is popular in this community. K-LOVE listeners in this area and all over the country support the radio station rather than have commercial sponsorship. I believe this is a great alternative to commercial programming here in our city. These kind of radio stations are vital to areas that are not served by other stations providing the kind of programming that K-Love provides. Please don't force K-Love off the air.
